

# 00900N1N2A2101L

## D.C. Block

### 0.01–8GHz N(M–F) Inner D.C. Block

#### Features

- ✓ Small Size
- ✓ Lightweight
- ✓ Low VSWR

#### Electrical Specifications

|                  |                 |
|------------------|-----------------|
| Frequency        | 0.01-8GHz       |
| VSWR             | 1.25:1(Max.)    |
| Insertion Loss   | 0.5dB(Max.)     |
| DC Input Voltage | 60V(Max.)       |
| Handling Power   | 1W              |
| Impedance        | 50Ohm           |
| Connection       | N Male-N Female |

#### Mechanical

|            |            |
|------------|------------|
| Durability | 500 Cycles |
|------------|------------|

#### Material

| Part       | Material        | Plated |
|------------|-----------------|--------|
| Body       | Brass           | Nickel |
| Center Pin | Brass           | Gold   |
| Insulator  | TFE((E=2.2-2.4) |        |
| Gasket     | Silicone Rubber |        |

#### Outling Drawing (Unit:mm)
